Oil and Gas *Well Permit Leaders*

We understand your concerns.

How do I complete my Applications for Permits to Drill?

How much more will this cost me?

How do I prevent delays?

Lamp Ryneerson is ready to coordinate and address all aspects of the permitting process. Work with one of our managers and avoid having to coordinate with numerous professional service firms. Our all-inclusive team will act as an extension of your operations and increase the efficiency and consistency of your permitting efforts.

We have developed internal processes to move your permit through the COGCC. No rescheduling drill times and no coordination hassles.

"Lamp Ryneerson is a professional organization, accessible and responsive to our needs." - Mineral Resources

LAMP RYNEARSON
& ASSOCIATES
ENGINEERS | SURVEYORS | PLANNERS

Our team is your one stop shop for oil and gas well permits to drill.

Lamp Rynearson, founded in 1959, has evolved from surveying and engineering for land development projects into a multi-service firm serving public sector and private sector clients.

Specialties include:

- Project and Regulatory Leadership
- Surveying
- Civil Engineering
- Geographic Information Systems (GIS)
- Transportation Engineering

Services include:

- Environmental/Natural Resource Management
- Geotechnical Engineering
- Construction Materials Testing
- Facilities Acquisition, Construction, and Management

our expertise.

We are the premier oil and gas well permitting experts in Colorado.

PROJECT MANAGEMENT ENGINEERING SERVICES

Lamp Rynearson's 50+ years of experience working with regulatory agencies and local governments on projects has led to practical processes that assist in managing projects from inception through final acceptance. We draw on extensive experience on complex projects. Our services include:

- Oil and Gas Well Permitting
- Local Government Permitting such as Use by Special Review (USR)
- Well Pad/Site Design and Planning
- Infrastructure Design and Planning
- Produced Water Disposal Facility Site Planning and Design
- Comprehensive Drilling Plans
- Construction Documents and Specifications

SURVEYING

Lamp Rynearson's survey professionals have over 150 years of combined experience. People look to us for comprehensive, accurate, and efficient surveys. Our in-house quality control processes assure that the end product strictly adheres to industry requirements. Our Total Station and GPS capabilities are used to accurately and efficiently complete any surveying task. Our survey services include:

- Well Location Exhibits
- Topographic Surveys
- ALTA/ACSM Surveys
- Boundary Surveys
- Construction Layout
- As-Built Surveys
- Geodetic Control
- Ground Control for Aerial Photography
- Right-of-way Acquisition Surveys

ENVIRONMENTAL/NATURAL RESOURCE MANAGEMENT

From the assessment of a single well site or gas plant, to the development of Environmental Impact Studies (EIS) for new pipeline construction projects, we understand the specific issues that affect the oil and gas industry. We offer a full range of environmental consulting services.

Our environmental services include:

- Site Assessments
- Natural Resource Management
- Natural Resources and NEPA
- Wetland Delineation and Mitigation
- Exploration and Production Related Services
- Regulatory Compliance
- Oil Pollution Prevention Plans
- Spill Prevention, Control and Countermeasure Plans (SPCC Plans)

Construction Layout Plan and Cross Sections - Rule 303

Section 404 Permit and Documentation

Use by Special Review Zoning Process

OTHER SERVICES:

Colorado Stormwater Discharge Permit - Rule 1002

Federal Drilling Permit

Comprehensive Drilling Plan - Rule 216

Exhibits/Maps

Produced Water Disposal Site Planning and Design

Site Planning and Layout

Survey

Sensitive Area Mitigation

Construction Documents (Roads, Pad, Site, etc.)

BASE FEE: Fees for completing services are based on the 2009 COGCC amended rules. Lamp Rynearson has made basic assumptions to determine the base fee for these services; however, each site will have specific requirements or waivers that may require an adjustment to the base fee. Mileage and per diem rates may apply. Fees assume Form 2 and 2A are completed concurrently.

Continue building
your success
with us!

The Lamp Rynearson team understands the permitting process. We welcome the opportunity to help you increase the efficiency and consistency of your permitting efforts.
